## The Intelligencer.

FREW & CAMPBELL,

Tue Washington City school committee Boyd. have been making what appears to be a thorough investigation of the modus ope-sandi of conducting the exercises of the Mortality: schools of that city. The committee report as the result of their investigations "Harmenious Education;" that "more attention is paid to the ma-that "more attention is paid to the ma-Public Schools." that "more attention is paid to the machinery of education than to its vitality, that teachers are burdened with statistical requirements, by efforts to present too high percentages, by too numerous written examinations, by attempts to teach too many studies, and by compulsory observance of inflexible time-tables," and their recommendations by way of remedy are in sum and substance: "No new text-books, fewer studies, more oral instruction by teachers, less show-work, more of the practical, less of the theoretical." This is conjugated properties of the search of the special in the duties of his profession he has earned the good opinion of our citients. cal." This is condensed good sense, and

#### Business Prospects Growing Brighter and Brighter.

The New York Public of Thursday presents a report upon the bank clearings of the principal cities for the first week in June that shows that the business situs tion of the country is not only steadily improving, but really gaining a very prosunced and unmistakable momentum in the way of buoyancy. We quote as

"Exchanges for the first week of June "Exchanges for the first week of some are particularly noteworthy in this, that outside of New York they exceed those of any other week this year, or for several years past. The exchanges here, though 26.2 per cent larger than those of the corresponding week last year, were not swollen by any excess of speculation on the Stock Exchange, for the sales of stock procedures during the first week of June 1997.

The following is the form of agreement the Stock Exchange, for the sales of stock were larger during the first week of June last year. The gain in other cities, however, begins to be surprisingly large. At Milwaukee it is nearly 60 per cent; at Chicago and Louisville it is over 40 per cent; at Boston, Philadelphia and San Francisco about 20 per cent, and there are but two cities in the entire list that do not share in the increase.

"The ratio of increase outside of New York (20 per cent) has not been equalled before this year. Returns for the first week of each month are always especially significant as to the condition of business at the minor commercial centres and in the manufacturing regions, and the reports here given are, therefore, the more encorraging. They unquestionably indicate a very vigorous inprovement in the volume of business throughout the country, and, though the increase is generally greater at the chief commercial than at the manufacturing centres, the ordinary course of events would bring special in the manufacturing regions, and the reports here given are, therefore, the more encouraging. They unquestionably indicate a very vigorous inprovement in the would bring special in the manufacturing centres, the ordinary course of events would bring special in the manufacturing centres, the ordinary course of events would bring special in the country of the countr he manufacturing centres, the ordinary ourse of events would bring special incourse of events would oring special in-crease first to the cities mainly employed in the delivery and marketing of bounti-ful crops. The revival of manufactures, though less rapid, is certain as long as prosperous agriculture supplies a broad and solid basis."

The New York Post of Thursday evening, taking the above as a text, makes the followcompanying figures which we have not room for, confirm the prevailing impres- to be called in for redemption, was before companying figures which we have not room for, confirm the prevailing impression about the improvement in general trade. Not only is the volume of business larger, but it is known that the profits on business are larger. Unless excessive speculation in and out of Wall street prevents, it may, we think, be safely calculated that the autumn trade, which in a wholesale way will begin next month, will be the best that this country has seen for many years. The resumption of specific payments has proved, to the astonishment of the Greenbackers, a greater stimulus to the Greenbackers, a greater stimulus to the Greenbackers, a greater stimulus to the Greenbackers, and the summer of speculation, than all their nostrums. If Congress will now adjourn, and even leave the currency situation where it is, the effect on the business interests of the country will be wholesome."

## WASHINGTON, PA.

Cheap Excursion to Niagara-A Wheel-ing Artist-The Coming Fourth-Cot-ored Saldiers' Rennion-Signs of Busi-ness Revival. An excursion to Niagara, via Pittsburgh

outhern, on the 24th. Fare for the round trip \$7.50. Two days at the Falls. Miss Lizzie Swift, of Wheeling, has

painted two beautiful pictures of the original Jefferson College, or Dr. McMillan's Log Cabin Latin School, and presented them to Dr. Havs and I. Y. Hamilton, Esq. They are copied from a photograph taken many years ago.

The Fourth of July promises to be a

great day in Washington. There will be a grand military parade, probably on the Fair Grounds, and the Wheeling and oth-er Sunday Schools in Shirls beautiful

which, he says, have hald 1,000 eggs single and accounts the coming stock sale on the 20th instant will prove a great sincess.

Mr. John F. Counell, of this borough, is now engaged roofing a building for Mr. S. C. Work, Baffalo; roof house of John Maxwell, Buffalo; roof house and tin work on barn of Mr. S. C. Work, Buffalo; roof house of John Maxwell, Buffalo; roof house and tin work on barn of Mr. S. C. Work, Buffalo; roof house and cher contracts in view, showing increased activity among builders.

The Road Law.

We give below the amendment to the road law, adopted by the Legislature at its last session. The law as amended is more. Section 12, the amended section, reads:

"Every able-bodied male person not under 21 nor year 30 years and several developed and person, or by a sufficient swan in the said period as the said surveyor may apprehend the surveyor thereof, at steep in good repair the roads and bridges the entirely by labor or partly by labor and partly by lake on only the cover is the said period as the said surveyor may apprehend the said that the said the said to the said period as the said surveyor may apprehend the said period as the said surveyor may apprehencessary. And the County could, and the said to the said period as the said surveyor may apprehencessary. And the County tools, and work on the said period as the said surveyor may apprehencessary. And the County roads and phosphoric acid.

From Many Power of the said surveyor may apprehencessary. And the County roads and phosphoric acid.

From Many Power of the said surveyor may apprehencessary. And the County roads and phosphoric acid.

From Many Power of the said surveyor may apprehence the direction of the surveyor thereof, at such place provided for and thy associated the said period

LEMONADE STRAWS-AT WHITE MOUNTAIN FREEZERS

It is Worth a Trial.

"I was troubled for many years with Kidney Complaint, Gravel, &c.; my blood became thin; I was dull and inactive; could hardly crawl about, and was an old worn out man all over, and could get nothing to help me, until I got Hop Bitters, and now I am a boy again. My blood and kidneys are all right, and I am as active as a man of 30, although I am 72, and I have no doubt it will do as well for others of my age. It is worth the trial.—
